

Culvert Permit Application

Permit Number: _____

Culverts installed shall be between 15 inches & 36 inches in diameter and shall extend less than 30 linear feet, unless otherwise authorized by the Parish Government.

Upon the determination of the Parish Government, a proposed culvert installation having a hydraulic analysis performed, there shall be an additional permit fee of \$250.00, and no such permit shall be issued until the results of the hydraulic analysis have been reviewed by the parish government and there is a determination that the proposed culvert installation is not detrimental to parish drainage or adjacent property.

The Parish will only replace existing culverts; the property owner is responsible for purchasing all materials and having them onsite when scheduled for replacement.

The Parish does not install any new, beautification, or driveway culvert extensions.
